

Are you being asked to do more with less due to budget cuts, head count restrictions, retirements, staff reductions, special projects, or compliance issues? Times are tough right now, and your company is probably trying to manage with fewer resources and a heavier workload on existing staff. The reality is that environmental compliance requirements still apply — regardless of the economic environment.

We can help.

Industrial Compliance

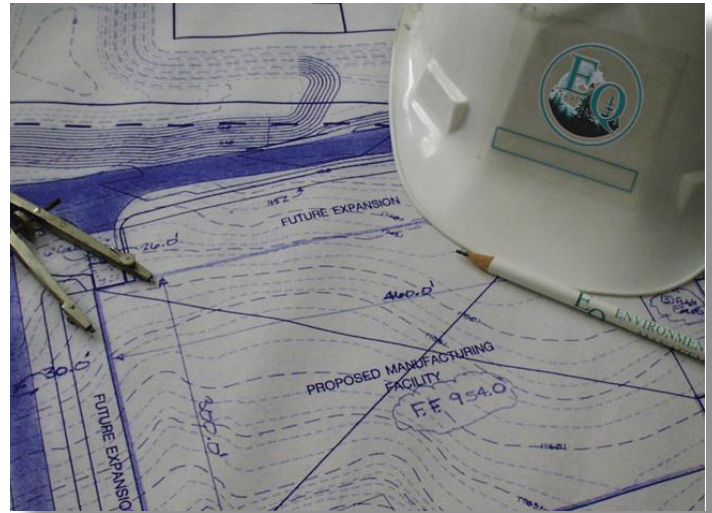

EQM specializes in dedicated multimedia compliance assistance. By providing temporary placement of personnel at your facility, we can help you comply with environmental tasks without increasing headcount or busting your budget. From a few hours per week to full-time, EQM offers flexibility in the scope, frequency, and duration of outsourcing to fit your company's needs.

EQM vs. Temporary Staffing Service?

- EQM personnel are experienced multimedia scientists and engineers, not entry-level technicians.
- Our employees are not “temporary staff” looking for full-time jobs elsewhere.
- Senior-level specialists and technical experts are always available for consultation.

EQM has more than 20 years experience in providing multimedia compliance and outsourcing to companies across the U.S., with expertise in the following industries:

- Alcohol distillation, storage, and distribution
- Aviation engine manufacturing
- Building products manufacturing: commercial and residential
- Chemical manufacturing and processing
- Flavors manufacturing
- Consumer goods including beauty products, non-perishable foods, and personal hygiene products

- Hospital-based healthcare
- Plastics manufacturing
- Printed label manufacturing
- Food/Processing
- Pulp and paper manufacturing
- Steel manufacturing
- Utilities including electric, natural gas, and wastewater
- Municipal Outsourcing

About EQM

EQM is a full-service environmental consulting, engineering, and remediation firm. In addition to our corporate headquarters in Cincinnati, EQM has eight offices located throughout the United States.
