

EQM and EQMS offer the benefits of a Small Business and 8(a) Small Disadvantaged Business, respectively, complemented by the direct support of our parent company, ASRC Industrial, and more than 25 sister companies' resources, expertise, and capabilities.

With over 30+ years of field experience, EQM and EQM Services, LLC can self-perform, manage, and provide turnkey environmental services through our staff of multi-disciplined experts. Our environmental remediation and consulting teams perform site assessments and turnkey remediation services for both government agencies and federal prime contractors on private, public, and federal sites throughout the United States.

We have executed more than 50 federal contracts valued over \$2B.
